EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The claims should be amended as follows:

In claims 8 and 24, change "(f)" to -- (e) --, and change "(g)" to -- (f) --.

REASONS FOR ALLOWANCE

3. Advisory Action dated October 2004, should be disregarded. Claims 1, 9, and 17 were amended to incorporate the features of dependent claims 7, 15, and 23, and did not present new issues.

4. The following is a statement of the Examiner's reasons for allowance:

The Lee reference does not appear to disclose or suggest the limitations of claims 7, 15, and 23, which were incorporated into claims 1, 9, and 17, respectively, in combination with the other features of claims 1, 9, and 17. Applicant's arguments (see pp. 6-7 of Remarks dated 16 August 2004) that Lee's binary median filtering 24 is not precipitated upon which quadrant(s) contain screen pixels is persuasive. As pointed out by Applicant, it does not appear that Lee's filtering result is dependent upon which quadrant(s) contain a particular type of pixel. Lee's binary median filter 24 is not concerned with the location of certain types of pixels; rather, the

only concern is that certain types of pixels are present within the mask of the filter, regardless of their location in the mask.

For these reasons, claims 1, 9, and 17 and all claims dependent therefrom are allowed.
